summary

Full stack web developer with great critical thinking and problem-solving skills, and the ability to thrive in a fast-paced environment. My background is in the ever-changing transportation industry, which requires frequent quick decisions, and innovative thinking. I worked for a less than truckload carrier, as a linehaul supervisor. Currently, I am looking to work with a creative team in an exciting environment, to build great products, where I can use my strong analytical skills.

Technical Skills

LANGUAGES: JavaScript, Typescript, Python, SQL, Ruby, HTML, CSS
FRAMEWORK: Angular, Express.js, Socket.io, Django, Flask, Rails, jQuery
DATABASE: MySQL, SQLite, PostgreSQL, NoSQL, MongoDB, Active Record, Building ERDs
Others: GitHub, node.js, NPM, Mongoose, Postman, AWS, EC2, API, Gems, Exposure to Agile

Web Development Experience

Coding Dojo, *Full – Stack Web Development Resident*   **Dallas, TX – 2018**
Completed an immersive 14 week full stack web development program with more than 1,000 hours spent learning and developing web applications using Python, MEAN, and Ruby on Rails

Projects:

- **Socket-Man** (JavaScript, Node.js, Express.js, Socket.io) – A multiplayer game similar to Pac-man

    - I worked with a team and was responsible for the CSS and optimizing the functions of the enemy movements
    - Developed using JavaScript, Node.js, Express.js, Socket.io, HTML, CSS and jQuery

- **NFL Draft Kit** (Python) – Application to help with NFL fantasy draft boards, and personal lineups, like Draftkings

    - I structured the database and implemented the front-end design, using queries to filter and limit player selections
    - Developed using Python, Django, MySQL, HTML, CSS

Business Experience

Old Dominion Freight Line, 2014 – 2018
Line Haul Supervisor, San Antonio, TX - 2016 – 2018
- Managed the dispatch of 50-100 drivers in the southern part of the Gulf Coast Region. To effectively keep shipments moving to the customers and hit 99.7% service
- Created and managed vacation calendar for 30+ drivers, to ensure proper staffing to maintain 99.7% on time service
- Coordinated with the dock supervisor to create a load plan to maximize trailer space and driver availability, in an effort to minimize costs, and get 100% of the shipments to their destinations on time

Outbound Supervisor, Dallas/Austin, TX – 2014 – 2016
- Managed 20+ local city drivers, to ensure all pickups and deliveries were completed in an efficient manner
- Oversaw employee documents for 30 employees, ensured all forms were completed and submitted on time

United Supermarkets, 2006 – 2014
